<https://www.linkedin.com/in/artemletya/>

Project Manager with over 7 years of experience in outsourcing, FinTech, telecommunications, and major internal products. I specialize in mobile development and microservices, having managed up to 6 cross-functional teams at once.

I've worked with technologies such as Node.js, Python, Kotlin, Java, .NET, Swift, Flutter, React.js, and Angular.js.

I focus on full-cycle project management, process development, and team optimization. I coordinate team interactions, manage risks, and ensure business objectives are met with timely releases.

My superpower? Resolving crises and pulling projects out of production hell. I also have a deep understanding of AI tools, and vibecoding is my hobby.

Work experience (7 years)

Senior Technical Project Manager, twinby.com | 06/2025 – present

Leading B2B, Data Science, AI, System Analytics, and Architecture at a Top 2 CIS dating platform. Currently driving the transition to a multi-tenant and multi-cluster architecture.

Lead Project Manager, NDA | 06/2023 – 07/2025

International holding company in the Fintech sector. Responsible for development and release projects on local markets of mobile apps and internal projects to improve the it-landscape. Development department of 5 teams (50 people): Android, iOS, Backend + DevOps, QA, Analyst.

Results

- Launched a mobile app in three international markets, increasing the retention rate by 15% and conversion by 10%;
- Implemented microservices for deep linking and domain delivery, reducing CRM managers' workload by 7%;
- Expanded the development department from two to five teams, boosting productivity by 40%;
- Reduced the time between releases by 20% through automation and process optimization.

Responsibilities:

- Led full-cycle mobile application development projects using Scrum and Kanban methodologies, including scope, timeline, resource planning, and risk management;
- Organized and controlled team communications, removed blockers, managed task dependencies, and facilitated quarterly cross-departmental planning;
- Gathered, analyzed, and decomposed business requirements, supervised the creation of technical specifications, conducted reviews, and maintained up-to-date documentation in Jira and Confluence;

- Monitored progress, analyzed process metrics (Cycle Time, Velocity), and implemented changes to improve productivity and process efficiency;
- Communicated with stakeholders, contributed to strategy development, and optimized business processes.

Agile Coach, MTC | 01/2022 – 06/2023

MTS-Cash division in the E-com business and MTS franchise in the Telecom business

- Within a year, I advanced from Scrum Master to Agile Coach, taking on a broader scope of responsibilities;
- Improved the effectiveness of quarterly plans by 15% by enhancing communication with adjacent streams;
- Delivered on the Digital Transformation Office's mandate by transitioning from LeSS to SAFe and launching a new department (5 cross-functional teams + 2 service team).

Delivery Manager, Яндекс.Деньги | 03/2021 – 01/2022

Fintech, payments

- Reduced operational losses by optimizing communications with stakeholders (approximately 90 people);
- Organized the launch of a project to implement the organization's metadata catalog;
- Increased the quarterly plan fulfillment rate to 100% of business expectations.

Project Manager, Itis Team | 03/2020 – 03/2021

Outsourcing in the field of mobile and web development.

- Increased project margins from 12% to 34% by implementing automation and codebase reuse;
- Contributed to tripling the company's revenue by raising the average project fee;
- Expanded the team from 5 to 18 members and ensured uninterrupted project operations.

Project Manager, Renewal Studio | 03/2019 – 03/2020

Outsourcing in mobile and web development

- Transitioned from Android Developer to Project Manager;
- Reached break-even within 2 months through effective organization;
- Formed 3 project teams and transitioned them to Scrum.
